Yearbook Dedicated To Fr. Larkin

CRUSADE FOR S.S.E. MISSIONS THIS SUNDAY

According to the directives of His Excellency, the Most Rev. Edward F. Ryan, D.D., Bishop of Burlington and in conjunction with the wishes of Our Holy Father, Mission Sunday will be observed on October 19, at St. Michael's College.

The sermons at all Masses on this day will be given by Rev. Maurice E. Boucher, S.S.E., moderator of the Mission Crusade.

The collections will be used to help both the foreign and home missions as requested by the Holy Father.

SPONSORING "KNIGHTLIGHTS"

Fr. Boucher's Mission Crusade Club is now at work preparing the all-student talent show, "Knightlights," to be given November 7 and 9 for the benefit of the Southern Missions of the Society of St. Edmund. The Mission Crusade, which sponsored "Knightlights" last year is well-known about the campus for its numerous activities.

Fr. Boucher has stressed the need of thousands of missionary priests, brothers and sisters overseas (and in our own country) who look to America to us, for help. Europe can no longer care for its own. All eyes look towards the faithful in the United States.

(Continued on page 6)

BIO. STUDENTS TO PUBLISH OWN PAPER

As its major project this year, the Biology Club is planning to publish a monthly science paper. It will deal with current topics and problems of interest in Biology and its allied fields, as well as news of scientific interest to students on the St. Michael's campus.

FIRST OF ITS KIND

Much progress has already been made in compiling data for the first edition which will appear shortly. It is of special interest to note that this will be the first paper of its sort to be published and edited by Biology students here at St. Michael's.

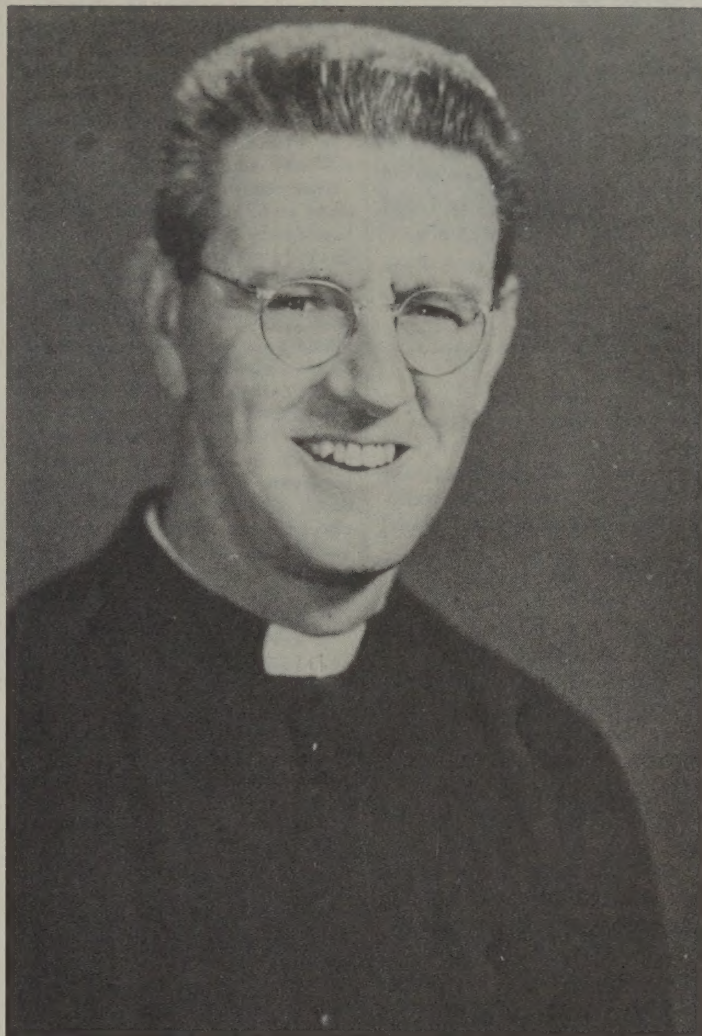

TWO-FOLD PURPOSE

The main purpose of this science paper will be to keep Biology majors abreast of the never ceasing advances in their field of concentration. As a secondary function it will also stimulate a greater interest in the many different phases of Biology.

NEXT MEETING.

Ken Kirby and Frank Dwyer have undertaken the task of editing the first edition. Anyone interested in contributing articles for this paper should get in touch with them for further details, or attend the next meeting of the club on Tuesday, October 28, at 7:00 p.m.

SENIORS HONOR HIM IN CLOSE ELECTION

Rev. Anthony M. Larkin, S.S.E.

VETERAN OF S.S.E. MISSIONS

By BARRY HAMILTON

The Senior Class paid high tribute to a prominent figure here at St. Michael's College last Thursday when it voted the honor of the dedication of *The Shield*, the Senior yearbook, to Rev. Anthony Larkin, S.S.E.

Fr. Larkin was selected from a group of nominees picked by the Senior Class. Those nominated were Rev. Lorenzo D'Agostino, Dr. Jeremiah K. Durick, and the working Brothers here at St. Michael's; a very impressive gathering of names familiar to all connected with the college and all the more praise is due Fr. Larkin for being selected for the honor.

WORTHY TRIBUTE

This dedication of the Senior yearbook is an annual custom here at St. Michael's with its purpose being that of paying tribute to the man or men, who has contributed towards the betterment of the college and the student body. This year's selection pays just credit to a man well-deserving of the honor.

Fr. Larkin is well-liked and respected by all who know him and many who have recently graduated from St. Michael's will never forget his invaluable assistance.

ACTIVITY PLUS

Father's activities here at the college consist of teaching Religion, proctoring at St. John's Hall, and acting as moderator of the Junior Class. He has a vast resource of experience to draw from and those attending his classes find them interesting and informative. He is considered an ideal proctor by all who have lived at St. John's and considerate towards all who associate with him. The Junior Class is proud to have him as their class moderator.

FORMER STUDIES

Father Larkin was born, brought up and schooled in Lowell, Mass. He attended St. Anselm's College and Boston College and was active in debating and singing while at college. After graduating, Father attended St. John's Seminary in Boston and the following year joined the Society of St. Edmund in '33. He attended St. Michael's for a short time and was then sent to the Society's house in Canada. After spending a year in Putney, he was assigned to the Southern Missions in Alabama and North Carolina. The South's loss was St. Michael's gain and since his return to the college three years ago, Father has made a host of new friends.

EXTRA-CURRICULARS

Father spends some of his free time puttering around with the golf clubs in the summer and doing a little skating in the winter. Last year he made the trip to Mt. Mansfield with the Outing Club and is looking forward to making the excursion again in the near future. At the present Father is studying for his M.A. in Education.

ICE GARDEN

His main interest is to be of any assistance to the students
Continued on page 6

Fr. Moriarty Will Fly To Alabama

Very Rev. Francis E. Moriarty, S.S.E., president of St. Michael's College, accompanied by Lt. Col. Jarvis R. Kingston, head of the A.F.R.O.T.C. department, will fly to Alabama for his first visit to the Air University.

Fr. Moriarty will be among the 115 college presidents and vice-presidents and 60 deans to attend one of two Air Force R.O.T.C. orientation conferences at the Air University, Maxwell Field, Montgomery, Ala., October 15 and October 22. Fr. Moriarty will attend the first conference.

The Vermont Air National Guard will fly Fr. Moriarty and Col. Kingston to Boston in its "Red Wing." There the Air Force will gather New England college presidents and A.F.R.O.T.C. officers and fly them to Maxwell Field.

Purpose of the visit is three fold, according to Brig. Gen. M. K. Diechelmann, commandant of the A.F.R.O.T.C. program:

1) To acquaint educational executives with proposed changes and improvements in future operation and administration of the A.F.R.O.T.C. program.

2) To review the new A.F.R.O.T.C. course of instruction to be inaugurated in the 1953-54 school years.

3) To emphasize plans of A.F.R.O.T.C. headquarters to conduct a fully developed R.O.T.C. program, mutually beneficially to the colleges and the Air Force.

St. Michael's is training over 400 students in the A.F.R.O.T.C. program to earn Air Force commissions at graduation.

SENIORS STEP OUT SAT. EVE

TO THE SENIOR BALL COMMITTEE: "CONGRATULATIONS!"

Above, members of the Senior Ball Committee responsible for Saturday evening's Class of '53 Dance. Front row, left to right: Matt Burke, Ed Carrier and Fran Foley. Back row: Ken Casperson, Leo Floyd, Ed Freeley, Jack Lyons, Dick Fleming and Dick Curry.

Sodality Offers "Living Rosary"

By DAVE QUINLAN

The Living Rosary, under the sponsorship of the Sodality of St. Michael's College, was presented on last Sunday evening at the Athletic Field. The event originally scheduled for October 7, the Feast of the Holy Rosary, had to be postponed from that date because of inclement weather.

VARIED PROGRAM

Marching to the strains of "Mother At Your Feet Is Kneeling," the members of the Living Rosary filed into the darkened stadium illuminated

only by the spotlighted statue of Our Blessed Lady. After a short sermon, "Rosary Living," was preached by the Rev. Paul A. Gopaul, director of the presentation.

The First "beads" were then lit and the assembly responded to the Glorious Mysteries. At the end of the Rosary the Salve Regina was sung by the College Choir under the direction of Mr. William Cofrancis.

SPECIAL INTENTIONS

In presenting the Living Rosary the Sodality had as

their special intention, the completion of the contemplated Alumni Chapel as well as the intentions of the president, faculty, administration and benefactors of the college and its student body.

The Sodality acknowledged their appreciation to Mr. Martin Donahue '52 for his special technical assistance. Others whose help made the presentation possible were: Joe Castricone, Harry Brusa, Cleveland Williams and Robert Wagner.

A Christmas Gift

Will this Christmas Season find our campus without a worthy replica of our Savior's birthplace?

In previous years the students of St. Michael's, assisted by Fr. Paulin and Fr. D'Agostino, have constructed a variety of nativity scenes about the school grounds.

Last year, at the request of Police Chief Charles A. Barber, a group of students constructed a window display including the familiar figures of the Holy Family, shepherds and wise men for a store in Winooski. The time and pains which these students put into their project was well worth the effort. The display was a success, it pleased the townspeople as well as all others who saw it and could not but aid this college's reputation.

So much for that, a job well done. But what about this campus?

All too frequently the job of erecting a nativity scene is virtually left to the last minute with the burden of the construction work done by a very few. Among any student body there are usually a group of leaders (in quotation marks) who, frankly, do a lot of talking and directing but who spend little time assisting their fellowmen when it comes to the "work" end of a student project.

In other words, the task of constructing a nativity scene, whether it be called "Operation Manger" or anything else, is up to the students themselves. And that includes the student who is reading this editorial right now.

We can make a success of this project, if we are willing to do our share it can become a piece of work rivaling anything else in this vicinity. It will mean time, energy, a lot of thought and (you guessed it) a donation from all students.

If at this point the Michaelman reading these words has suddenly lost interest with the thoughts, "Where have I heard that one before?" Let him ask himself this question.

Will you be giving Christmas presents this year? Will you be doing so with the true spirit of giving rather than merely operating a type of "exchange." You know the type, "If you give me a present I'll give you one."

But even if this is so; even if the student reading this only gives to those who have given to him, who is it that has given him more than any others? Answer that question yourself.

A donation, yes. But it need not be a large one. The price of a couple of beers, cokes or packages of cigarettes should not cut too deep a slice in most Michaelmen's billfolds. The call for "money" is certainly a familiar one for most of us, but we have given.

But the financial angle, however important, is only part of the story.

A quick glance around the campus a week ago was all that was needed to prove the "esprit de corps" and artistic abilities of which we Michaelmen can be justly proud. Such projects demanded a working knowledge of carpentry, design, lighting, painting, direction and the efficient gathering of materials.

As all who participated in these displays will vouch, such work demands time. But they will also tell you of the tremendous satisfaction that such work brings.

You don't have to be a budding architect, portrait painter or understudy of Cecil B. DeMille for such a program. There is plenty of talent here at St. Michael's. Let's use it now for a Christmas theme.

At last week's Student Council meeting a committee was formed to see that this project be carried out and to accept the responsibility that it entails.

But a good deal of the responsibility lies with us students to insure success.

We welcomed our Alumni in a most fitting manner last weekend.

Now let's welcome our King royally.

A Letter To The Editor

Last Sunday the Sodalists organized a Living Rosary in honor of Our Blessed Mother. To all who attended, the devotion was inspiring, the weather ideal and the effect beautiful.

However, a question arises. Stated simply, "Where was everybody?" It's possible that having Christ in competition with the local movies is placing Him at "somewhat of a disadvantage," but that can't be the complete answer. At least I hope not.

The most extravagant estimate of student attendance ran to a whole 35 or 40. Even at this figure the Michaelmen who formed the living Rosary outnumbered those in the stands by almost 2 to 1. Where was everybody?

Now make no mistake. I am not suffering from an excessively tight halo. Neither do I limp around campus with a bad case of scarred knees, nor am I, for that matter, a Sodalist.

But I am interested in knowing where all the high spirited Michaelmen were who two nights previously bellowed themselves hoarse and trudged the whole 3 miles into Burlington. Having thus proven both their feet and vocal chords to be in excellent condition, surely they might have lent them to slowly walking to the stadium and softly reciting the Rosary.

I have suggestions for the Sodalists. To stimulate attendance they might commission the cheerleaders and their moderator to stir up another exhibition of mob frenzy. Possibly they might stage "snake dances," bonfires, or, if these failing, promise a fireworks display. These appear to be rich enough in campus appeal.

Almost everyone is aware of the recent surge in campus spirit and drive. That in itself is excellent. However, let's not nullify this by channeling it all in one direction.

Sincerely,
A Michaelman, '54

"Knightlights" To Have 19 Acts

With curtain time only three weeks away, "Knightlights of '52," is rapidly taking on the quality of last year's show, according to Co-directors Leo Allard and Paul Kelly. They are integrating not only the best talent of '51 with the most promising of the Freshman performers.

LARGE CAST

The Mission Crusade revue is well balanced with a cast of 120 in 19 acts, both in specialty and production numbers. "Knightlights" is certain to provide the campus the best in singing, dancing and comedy - both high and low.

The Iarossi brothers are one of the many outstanding specialties of the show. They have teamed together to provide what may well be a "Knightlights" highlight if present audience reaction is a proper indication.

MORE GIRLS

In addition to the Trinity girls mentioned last week, 10 more have volunteered to aid in the show's opening chorus written by John Hamilton especially for "Knightlights." Joe Castricone is the chorus director as well as the choreographer.

ROSIE O'GRADY?

Rev. Maurice Boucher, Mission Crusade moderator, announced that tickets will go on sale in the halls in approximately two weeks. Hall representatives will have sufficient tickets for all Michaelmen.

By the way, WHO is "Sweet Rosy O'Grady?"

"WHO'S WHO" NOMINATIONS IN

Monday night at 6:30 p.m. the Student Council held its weekly meeting with Herbert Fuller presiding.

The treasurer of the Council stated that all club budgets were in and the sum total of the Student Council budget was \$4,963.

All old business was discussed first and Walt Rovinski made the announcement that October 31st would be the day that the Red Cross will be on campus to receive blood donations from the students.

WHO'S WHO

"Who's Who in American Colleges," was also brought up and a committee of Walt Rovinski, Dave Mullin and Frank Barrett presented to the Council a list of 20 outstanding students whom they felt have done the most to contribute to the fine spirit

that prevails at St. Michael's. From this group, the Senior members of the Council voted on fifteen to be handed over to a faculty committee which will make the final choice of ten men.

POPULAR VOTE

The procedure for the voting of N.F.C.C.S. delegates was discussed and it was decided that the procedure would be the same as last year. The student body will elect delegates by popular vote.

MIDDLEBURY DEBATE

A sum of fifteen dollars was presented to the Debating Club in order that they may participate in a coming meet at Middlebury College.

Frank Barrett then asked to have a committee investigate the possibilities of having a Christmas Crib on campus this year.

FRENCH CLUB MAKES SWITCH

The French Club has announced that the play, "The Heart in Distress," will be presented on the stage of Austin Hall in place of "The Son of the Devil," Sunday, October 26.

Due to the illness of the leading lady, Miss Martin, in the scheduled play, the "Troupe du Laurier" has offered Club Carillon another choice.

"The Heart in Distress," will also be a humorous melodrama and has a plot which

ought to be even more amusing than the cancelled one.

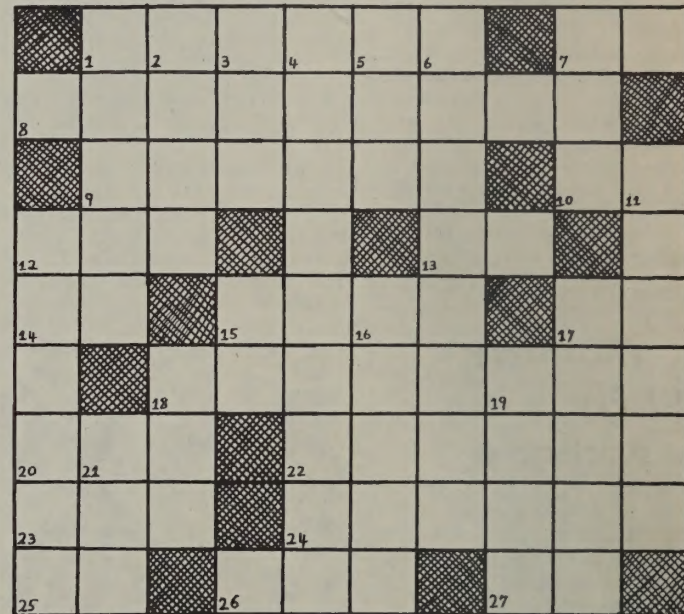

A "PAST"

As the story unfolds we see a widowed father preparing to remarry against the wishes of his daughter. Interest heightens when we learn that the lady of his choosing has a mysterious past.

The play will undoubtedly be enjoyed by all. So if you don't know a word of French, don't let that stop you. Remember - October 26.

The curtain rises at 8:00 p.m.

TEASER OF THE WEEK

HILLTOPICS by FRAM HOBEN

Now that it is over and the Purple Knights are the winners and still champions, maybe we ought to drop the subject and not rub it in to our friends across the way. But somehow the time seems appropriate.

The Knights surprised a lot of people last Saturday with that 19-0 win. Some because they won at all, others because of the size of the score, and the clear cut margin. But probably the most surprised man was Ed Donnelly, the new head mentor of the Catamounts.

No one could blame Coach Donnelly for being optimistic on the eve of the game. His team had looked no more like the '51 eleven than the Knights resembled their predecessors, the week before. The Cats had played the supposedly powerful Maine Black Bears on even terms for three quarters or more, before losing out 14-6 in a game they might have won if replayed.

THE MEETING OF MINDS

S.M.C., on the other hand, had seen its ten game win streak broken by Arnold. The Knights were on the way down, the Cats on the way up. It was a toss-up. Physically, that is.

Mentally, Coach Donnelly probably lost his own ball game. For the driving spirit behind week long practice sessions of the Purple were the U.V.M.'s mentor's own words. After watching Arnold upset the dope, his observations were that "the Knights showed nothing." These opinions were not confined to other members of the U.V.M. board of strategy, either.

Plenty of Burlingtonians heard the news and were ready to toast the new champs before Saturday afternoon rolled around. As things turned out, the only thing that got toasted was the back to Mr. Donnelly's neck.

JACOBS WINS OUT

"Doc" Jacobs merely took said quote and waved it in front of the Knights for six days. He must have done a pretty good job too, for Dick Stokes and John Sully, to mention only two, thought for sure that that Number 16 had it and they were positively going to get it or else. They got it.

The Cat's boss actually was out-maneuvered by the "Doctor." He kept looking for that weak S.M. pass defense, and as a consequence, forgot to duck.

*** *** *** *** *** *** ***

They say that if you take each game as it comes along, each week looks like a more difficult assignment than the previous one. Such is the fate of the Knights. Having just gone all out against Vermont, they can hardly get the pleased grins off of their faces when they run smack into A.I.C. this week and Springfield next.

To a lot of people, A.I.C. connotes nothing more than American International College. But if you have been noticing all of the pigskin previews and the weekly results you get a different impression. Actually, the Aces have as good a small college team as will be found in New England, or anywhere else for that matter. They are seasoned, big, and talented, the perfect ingredients for a winner.

CAN'T GET MUCH CLOSER

As a group of Sophomores, for the most part, last year, the Aces gave our all-winning Purple a terrific struggle before losing out 20-13. Pete Plourde had to go 68 yards in the final quarter to get the victory, too. The year before, the Knights won 19-14. And while going backwards - the teams played a tied in 1949, and A.I.C. won two previous meetings.

Can't get much closer than that now, can you?

But despite the calibre of the opposition this afternoon, no one should sell the Knights short. This is actually the turning point of the season for them and coaches and players alike know it. A victory would give them the needed push for the remainder of the season, and send them on their way to a very successful year. If they continue on the rise they exhibited a week ago, it will be difficult for any club to stop them.

Happy Day-Cats K.O.'d 19-0

By JOHN LOUGHRAN

Before an estimated 6,000 Homecoming fans last Saturday at Winooski Park, the Purple Knights beat their arch rivals the University of Vermont in a thriller 19-0. The game, a toss-up because of the Michaelmen's loss to Arnold College the week before, and the Catamounts great showing against Maine, saw the Purple come through with great defensive play to beat a determined U.V.M. eleven.

Gary Clairmont took Kenny Casperson's opening kick-off on his own 13 and ran it back to the 18 before being brought down. On the third down, quarterback Bob Deacon fumbled and John Sully recovered for the Michaelmen on the U.V.M. 16 yard line. On the fourth play from scrimmage, Mike Carr went over to score, and as Casperson's try for the extra point was off to the right, St. Michael's led 6-0.

Late in the first period, the Catamounts led by Gary Clairmont and Jim Montgomery, brought the ball down to the Purple Knights' 10 yard line before running out of gas. On the next play, Mike Carr fumbled and Bob Hughes recovered on the Knights' seven for the Catamounts. Standing in their own end zone, the Michaelmen put up a terrific goal line stand and held the Catamounts on downs on the two.

BERGERON BOLTS

Early in the second period, U.V.M. again penetrated the Knights' defenses to the seven yard line, but again the Michaelmen held. Midway through the third period, Bob Fontaine recovered a Jim Montgomery fumble for the Knights on the Vermont 31 and things looked prosperous. Mike Carr and Ted Bergeron bulled their way down to the three yard line before

Continued on page 5

CARR TOPS SM IN OFFENSE

Halfback Mike Carr is still leading the Purple Knights in offense with the schedule almost half over. The speedy native of Lynn, Mass., has chalked up a net of 327 yards thus far.

Mike has been the workhorse too, having been called on to carry 68 times. But he is a wise choice on the part of quarterback Ken Casperson, since he is averaging five yards per try, and has scored four touchdowns.

Against St. Francis, he went 32 and 15 yards and against Arnold nine yards for scores. The Knights' first tally against U.V.M. last week was made by Carr on a plunge from the one.

Carmino Parrella is second, having gone 180 in 39 carries, and Ted Bergeron third with 89 in 27. The Frosh fullback, who had his best day thus far against the Catamounts, has scored twice.

Jerry Cronan has the other TD, and Casperson five extra points. Yet, Don LaBossiere is tops in average, boasting 7.1 on 9 tries. The first carry of the season for the defensive stalwart went for 30 yards.

As a team, S.M.C. has outrushed the opposition 636-351. But in the air the Knights are behind 235-67, having completed eight of 23 attempts.

INTRAS OPEN ALL ELIGIBLE

Rev. John A. Stankiewicz, S.S.E., announced Tuesday the opening of the 1952-53 Intramural season.

Opening games in both the touch football league and the basketball loop were scheduled to begin Wednesday. Plans call for two hoop games each night, and one football game in the late afternoon.

Because of the weather conditions in the weeks to come, the touch league will be run on elimination basis. That means it is more of a tournament set-up, wherein one loss puts a team out of competition.

This will be Fr. Stankiewicz's second year as Director. Under his supervision last year's Intramural program was one of the most successful in the school's history. And, judging from present plans, things should be just as interesting this season.

Everyone is eligible to compete in the leagues except members of the football team. However, when the gridiron campaign comes to an end, a more extensive basketball program will function. But for the present pigskinners are out, and everyone else, including members of last year's varsity, are in.

Judging from appearances, St. Leo's looks like an unusually strong club. The Lions boast George Barry, varsity luminary, and a host of veteran Intramural stars. Last year's fall league, was taken by Ryan Hall I and the regular winter loop crown went to Old Hall III.

LATE NEWS: On the Intramural scene Thursday afternoon Old Hall III held Old Hall II to a 6-0 victory.

Hoopsters from Ryan III conquered their fourth floor opponents, and Ryan I bowed to the athletes from the second floor. No scores were available at press time.

MICHAELMAN NEEDS FRESHMEN

Our news staff needs hard working freshmen (also lazy ones) for reporters. Many attractive careers are open on the Editorial Staff.

PIGSKIN PROFILES

By ED FREELEY

Dick Stokes

Eddie Carrier

Dick Stokes, the boy who has been spending most of his four years up here in the oppositions backfield, is a native of the Bronx. This 6-3, 190 pound end is a regular member of the defensive unit but sees considerable action on offense.

He was one of the co-captains for the U.V.M. game and he turned in his usual stellar performance, as Bob Deacon the U.V.M. quarterback will attest. He nailed Deacon behind the line throughout.

Dick is a graduate of Cardinal Hayes High School, New York. While there he played football for two years and captained the team in '49. He was picked on the All-New York City team in '49. Here at S.M.C. he is majoring in mathematics.

Say You Read It In The Michaelman**Knights Meet AIC; Stop Salvucci-Cry**

By BILL WIGMORE

Possibly the toughest opposition the Knights will have to face this season, American International College of Springfield, Mass., will invade the Hilltop this afternoon.

Although St. Michael's knocked off the Aces last year by a 20-13 count, down at Springfield, the visitors have since taken six games straight and are now back seeking revenge. Added to this is the fact that Northeastern, in taking a 41-7 shellacking from A.I.C. last week, nevertheless had the honor of being the only team to score off them in their past five games.

Last year's victory was far from a pushover for the Knights and with 19 returning lettermen on the A.I.C. squad, the St. Michael's defenders

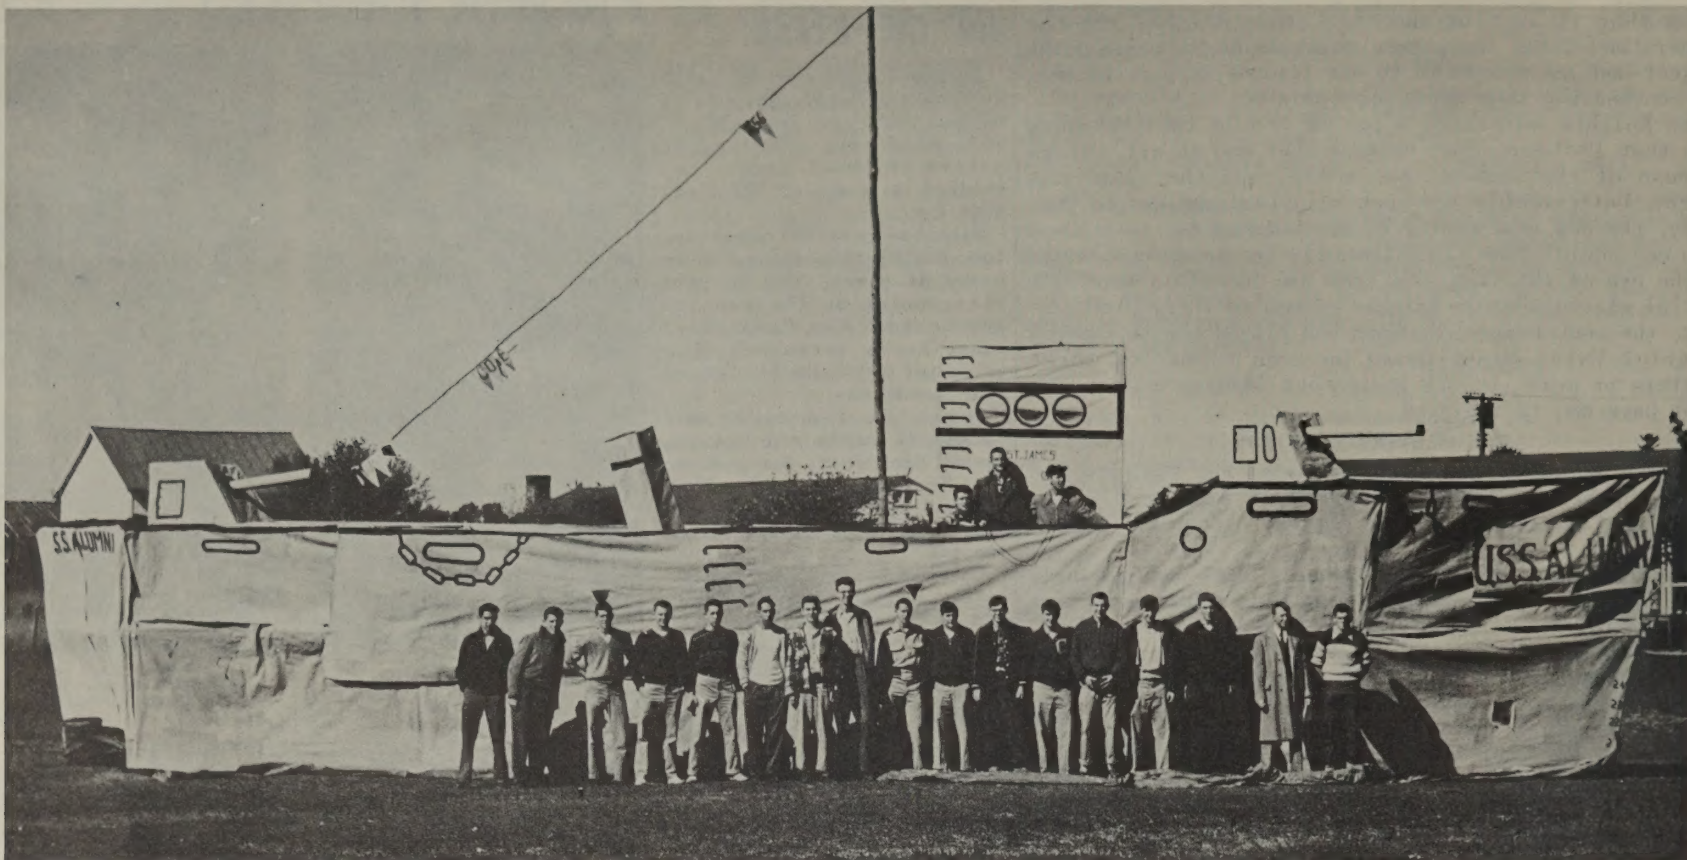

will have their work cut out for them. As yet undefeated this season, the Aces have also trimmed Amherst 21-0.

Ken Baldyga, 200 pound quarterback, will call the signals as A.I.C. lines up in either the T or the single wing formation. In the half-back spot will be Gay Salvucci, one of New England's very best who last year scored one of A.I.C.'s touchdowns against the Knights. He is their top ball carrier and passer. Another troublesome fixture in the backfield for the Yellow Jackets will be the 210 pound fullback, Al Laude,

Continued on page 5

Will History Repeat? Pete Plourde gets by the line of scrimmage and is off for a 68 yard TD, to beat A.I.C. 20-13 last year. The Knights and Aces clash this Saturday afternoon in a big one.

Co-winners of the Homecoming Weekend Intramural display contest, St. James' Hall (above) and St. Pat's Hall (below) both used ship themes in their artistic greetings for the returning Alumni.

St. James' "S.S. Alumni" included an invocation to "Sink U.V.M." and a short distance away could be seen the upper part of a 'conning tower' belonging to an 'enemy submarine.'

St. Pat's "Showboat," heavily decorated with "welcomes" for the Michaelmen who have gone before us, was complete with a 'sidewheel pusher' and a sufficient quantity of "Gay 90ish" paraphernalia to establish it in the proper historical period.

Ranking second place in the Intramural display contest was this 20 foot portrait of St. Michael and his traditional dragon (left).

The product of several artists from Ryan Hall I, this display could be seen day and night during the Homecoming Weekend repeating for the Alumni and all others the Michaelman spirit of victory over error and evil.

Many other displays not shown here added their colorful highlights to the campus grounds during the weekend of October 10 to 12. As in past years the displays of all student halls have been an indication of both the artistry and the spirit of cooperation which Michaelmen possess.

A.I.C. Up

Continued from page 3

who led the Bay Staters to a 13-0 win over Springfield in the final game of the '51 season.

On the line, A.I.C. boasts of two possible choices for All-New England in Bill Murray and John Doldorian. Murray is a sixty minute man, a good blocker at defensive tackle, and a fine pass receiver as an offensive end. About the best lineman on the team is Doldorian, likewise a tackle, who often switches to guard on the defense. Both of these men stand over six feet tall and tip the scales around 215 pounds. According to Coach Hank Butova, the Aces will feature a defensive platoon, which has been largely responsible for the two victories so far this year.

For the Knights, the offensive lineups will be somewhat the same as last week, with Ken Casperson working the "T." Mike Carr and Carmine Parrella will take over the halves while big Ted Bergeron will do the plunging from the fullback spot. The showings of Don LaBossiere and Bob Jarvis in the Vermont tilt probably indicate that we will see more of them on offense the remainder of the season. From left to right the line will resemble this: Crotty, Balcom, Carrier, Aumand, Leahy, Antone and McDonald.

FONTAINE OUT

An injury to Bob Fontaine, defensive backer-up will probably necessitate some changes in the defensive platoon for the Knights as he will not be back for a few games. His spot will probably be taken over by John Gillen. Gillen started the first two games. The remainder of the line will have, Stokes, Hamrah, Tricarie, Sully, Diamond and Foley.

In the defensive backfield will be Barbati, LaBossiere and a shifting of Jarvis, DiJulie, Spreer and Jerry Cronan, whose pass interception and touchdown highlighted the U.V.M. game. Coach "Doc" Jacobs will also have on hand Freshmen Don Gallagher, a scatback and tackle Ronnie Finotti, who showed up well against U.V.M.

Up to now, St. Michael's and A.I.C. have met five times, each team having two victories to its credit with the odd game ending in a tie. This game will not only decide which team takes the edge, but also whether or not the Aces continue along the undefeated trail.

The Knights on the other hand, have dropped one already and would like to take the road next week against Springfield with three rather than two wins under their belts.

U.V.M. Down

Continued from page 3

another fumble gave the ball back to the Catamounts and stopped the Knights' bid for a touchdown.

A few plays later the Knights again took over on the Vermont 35 yard line. Carr and Don LaBossiere's tricky running brought the ball down to the 21 yard line. On the next play, Freshman fullback Ted Bergeron took a pitchout and went around right end for the score, and the Gold clad hosts led 13-0. Casperson's kick through the uprights for the extra point was good.

FROSH GOES 43

On the first play of the fourth period, Freshman halfback Jerry Cronan intercepted a Bob Deacon pass and ran 43 yards for a TD. Casperson's try for the extra point was wide, but the Cats were reeling.

The Catamounts started to roll and moved the ball from their own 41 yard line to the Knights' eight, before the Michaelmen put up another brilliant goal line stand and held. A few plays later a Deacon to Montgomery pass and some fine running by halfback Ed Nemer put the Catamounts on the Knights' five yard line. Once again the Michaelmen held, and the final score found St. Michael's the winner 19-0.

The Situation

The Marine Corps has opened up flight training for its reserve officers including college graduates who have entered its Officer Candidate Class program.

These college graduates, according to Captain Edward F. Duncan, Officer Procurement Officer, Marine Corps Recruiting Station, Post Office Building, Boston, Mass., must complete successfully at least 14 of their 20 weeks' Special Basic Course at Quantico, Va., before applying.

This will be necessary because all Marine aviators must know tactics of ground warfare for their coordinated air-ground teamwork in attack.

TESTING PROGRAM FOR ALL FRESHMEN

By JERRY RYAN

Here at St. Michael's an extensive testing program for the selection and guidance of Freshman students has been in operation for the past three years.

PREDICTIONS MADE

Prof. Robert Hebert is in charge. Scholastic aptitude tests have been given to determine whether or not the high school graduates seeking admission have the ability to do college work. The results of this test were used by the Admissions Committee in selecting students for the Freshman Class.

After students are admitted they are subjected to tests in various fields. By analyzing the relationship between the scores on these tests and later grades in the Freshman year, the Counseling Office and the advisors are better equipped to help the Freshman student choose the right field of concentration. Achievements on these tests are made available to the students and the teachers so that individual help may be administered.

Perhaps the most important of these has been the English test, because success under the new program depends a great deal on the student's English skill.

NEW HEIGHTS FOR THE 400

By FRED HANNAN

The A.F.R.O.T.C. unit at St. Michael's College, has started a student cadet training program, under the capable supervision of Capt. Thomas A. Cootey and Lt. Frank Delmerico.

Each week these faculty members take up a group of cadets in a T-6 trainer plane in which they fly for an hour over the Burlington area. The cadets learn the art of dual instruments while in flying and they even get a chance to hold the plane on course.

The T-6 which they are using now belongs to the Air National Guard but plans have been made so that the unit may have one of its own. Also in due time they plan to take 20 students up at a time and go on four or five hour hops in a larger plane, that being the C-47, but as of now, this certain aircraft is being used in Arizona.

Those who have had the chance to go up thus far are as follows: Libero Baldarelli, Ronald Bourque, Ed Hettinger, Sal Leombruno, Chris Menadier, William O'Shea, Bernie Roque, Marty Walsh and Lou Siclari.

The big bad wolf, he huffed and puffed
To blow the pigs' house down.
'Twas not a Lucky Strike he puffed,
Or he'd have lost that frown.

University of Michigan

LUCKIES TASTE BETTER!

They're made better to taste
cleaner, fresher, smoother!

Take a Lucky from a newly opened pack and carefully remove the paper by tearing down the seam from end to end. Be sure to start on the seam. In tearing don't crush or dig into the tobacco. Then, gently lift out the cylinder. See how free Luckies are from air spaces — "hot spots" that smoke hot, harsh and dry—from loose ends that spoil the taste. Note that Luckies' long strands of fine, mild tobacco are packed firmly to draw smoothly and evenly—to give you a cleaner, fresher, smoother smoke. Yes, Luckies are made better—to taste better! So, Be Happy—Go Lucky! Get a carton today.

When rushing season comes around
For our sorority,
The girl who always gets our bid
Knows L.S./M.F.T.

Thomists Study Modern Society

The Philosophy Club, spoken of as having "one of the most thoughtful, educational and interesting programs on campus," studies the teachings of St. Thomas Aquinas as they are brought up to date. This concerns the reasons for existence and action in society.

A list of topics to which Thomism can be applied has been selected and will be used throughout the remainder of the year.

The first papers to be presented have concerned the place of Thomism in Education. These papers were read at a panel consisting of Robert Druke, John McSweeney and Edward O'Gorman.

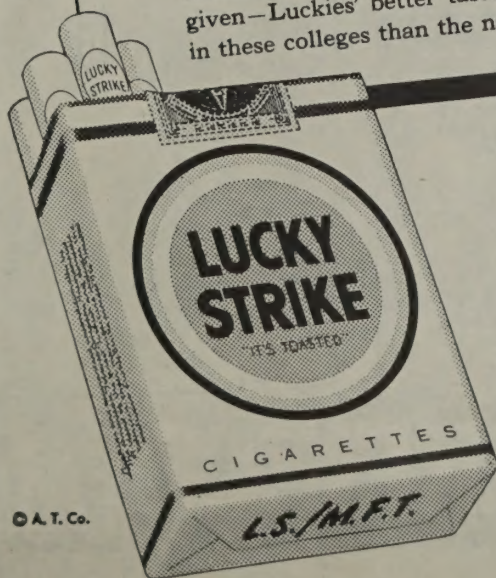

The next panel, to be headed by Edward Daley and assisted by Donald McGaffigan will treat of Thomism in Government.

In the meantime, President Frank Foley and Moderator William Burke are collaborating in their efforts to bring a noted Thomist to this campus.

SPECIAL NOTE!

College students prefer Luckies in nation-wide survey!

Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette—and by a wide margin. No. 1 reason given—Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

First Snow At Mansfield

About this time every Fall, students from St. Michael's (and their friends) board the busses for the colorful ride to Underhill.

Here they organize and stock up on the provisions given by the school and then it is time for the big trek to the ridge above.

All the way up a changing panorama of Autumn beauty greets your eyes, as those who have made the climb in previous years will tell you.

"CHOOSE UP SIDES"

Songs, laughter and gaiety are the keynotes of this adventure, particularly when the first snow is discovered high up near the Sunset Ridge. Then follows the season's first snowball fight. Note: You will need only light sweaters for the entire trip.

This coming Sunday the busses will leave from in front of the dining hall at 9 o'clock sharp.

The complete trip, including bus fare and refreshments, will be only one dollar per person. President Stan Hayes is in charge.

Fr. Larkin

in his hall, both spiritually and physically. Last year Father made a small clearing beside his hall during the winter months and it was a common sight to see him shooting a puck around with anyone who cared to play. Father is a better hockey player than he will admit and many will attest to the fact that he is quite adept at checking.

The '53 edition of *The Shield*, edited by Owen Murphy, assisted by Lou Vanasse and Jack Reardon, will have to be at its peak in order to match the man they have chosen.

NOSE, THROAT,

and Accessory Organs not Adversely Affected by Smoking Chesterfields

FIRST SUCH REPORT EVER PUBLISHED ABOUT ANY CIGARETTE

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-months period each smoker was given a thorough

examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
